The first Appropriation by Congress for this purpose, was for the year 1839; and it has been continued yearly, in different amounts.

The purchases were made by the Assistant Assayer, William E. DuBois, who was informally put in charge of this business, and who rendered duplicate bills stating the particulars; one of which was retained in the Treasurer's custody in the Mint, the other sent to Washington, as usual.

No other account has been kept of these payments (except memoranda in small books) until the opening of this Book, which begins with the appropriation for the year ending June 30th 1856.

The previous payments, which always corresponded with the amounts appropriated, are herein recapitulated.

The whole intrinsic and cost price was \$245.07; but the pieces being rare, would have commanded a higher price.

Three of the pieces, were soon re-obtained; a Moffat twenty dollar piece, and another of same value, from two specie brokers; a third of same value, from Sharpless & Co. dry goods store. For these three we paid \$59.75, to the parties returning them. The other pieces were not recovered.

The three perpetrators were soon after arrested, convicted, and sent to the Penitentiary.* The skeleton key with which they opened the case, was left here by a police officer.

Small silver medal, Independence of Chili 1818, presented by W.H. Townsend, Providence R.I.

Dollar and half dollar, siege pieces of Chile 1859, presented by E.H. Hollinshead, Philadelphia.

* After serving out their time in prison, some of them came into the Cabinet again, apparently prowling for an opportunity to steal; but perceiving that they were watched, they decamped.

On the Director's file of correspondence, date of October 30, 1844, there is an index or abstract of all the letters which passed, relating to the purchase of the Vienna collection of ancient coins, which now forms a considerable part of our collection. The letters, twenty one in number, chiefly between the Director (Dr. R.M. Patterson) and Consul Schwartz of Vienna in Austria, date from June 10, 1843, to October 4, 1844.

The whole cost of the collection, including expenses of carriage, insurance &c. and some books, is there summed up, at \$1123.49; at which cost, considering the remarkably fine condition of the specimens, and the cheapness of the Vienna market compared with that of London, the purchase was very advantageous; and since that date, the demand for ancient coins has ^{largely} advanced the price, especially in Byzantine coins.

As the appropriation for that year was only \$800, it was necessary to part with some duplicate doubloons &c., and to anticipate the appropriation of the year following.

The ancient and Oriental coins sent by John P. Brown Esq. U.S. dragoman at Constantinople, are in the bill of Feby 17, 1844; amount, \$125.-

[[preprinted]]No. 18. TREASURY DEPARTMENT[[preprinted]]

[[handwritten in pen]]

This die (half dollar 1809) was found by me in the law office of the late Jos. A. Clay, where it was used as a paper weight for more than 30 years. The face of the die was obliterated by a heavy coat of paint.

I purchased the die and herewith deposit it in the Cabinet of the Mint for Safe Keeping, and to be preserved as a relic.
